Poster presenter HI-TECH B0 1000 x 1414 mm

Plexiglass 4 mm x two layers, mounted on eight steel distances 40 x 19 mm.

It is a very aesthetic form of presentation of a poster, photo or printout.

The anti-frames are made of extruded transparent plexiglass.

Plexiglass for posters are factory-packed with protective films and the films should be removed only after installation on the facade.
