We make signs and logos:

- made of acid-resistant steel, ground from 2 mm to 10 mm
- made of acrylic glass
- brushed metals imitating steel or brass

Logos inside - the possibility of backlighting the signs with leds / diodes of any color of light - elegant, delicate back glow.

Logos outside - the sign can be illuminated with halogen.

Signs and logos in this technique look great inside the building, in various receptions, halls and outside the building.

Please send us **inquiry by e-mail ( quickly quote )** stating:

- logotype in jpg specifying the dimensions of the base.
