Letters and spatial signs made of styrodur.

Cheap, light and resistant to weather conditions !!!

Structure of the letter:

Lico - vivak covered with Avery self-adhesive foil.

Side "10 or 5 or 3 cm" - painted with RAL paints.

Fixing:

We attach a template to each set of letters / signs for easy and quick assembly.

We glue the letters and signs to the facade with a specialized glue.

We propose a base for the sign / letters - made of 5 mm transparent plexiglass glued on the back with frosted foil.

Please send us an inquiry by e-mail - (we quickly estimate) by sending a given sign in jpg - specifying the length of the logotype base and whether the logotype should have a background / undercoat as in the description above or assembly directly to the facade.

Minimum order: EUR 110 net.

ADVERTISING AGENCIES !!!

For advertising agencies, very high discounts on products (minus 25%) after sending company documents confirming the agency's activity by e-mail.
