Information Board in the HI-TECH system

The rope board is built on the basis of 700 x 80 mm panels and the main panel 2400 x 250 mm.

The panels are printed with graphics on the underside and sealed with foil imitating the effect of sanded glass.

Price in the box for 1 panel with side mounting brackets.

Ceiling / floor or wall / wall mounting brackets - 35 EUR / pc. Net.

Main panel 2400 x 250 mm = 210 EUR / pc. Net.

The board in this system, despite being large, seems light and visually does not overwhelm with its size.

We attach a simple assembly instruction to the board.
