Parking markings.

The Parking Bollard is built on the basis of a system aluminum silver anodized profile.

The sign is made of rigid PVC, covered with ORACAL foil in road / blue color.

The parking post has a pocket for inserting information - interchangeable - logo, car number, etc.

Parking post height: approx. 63 cm from the ground.

Label approx. 50 x 30 cm.

The parking post is installed using a steel profile 25 x 25 mm, 50 cm long.

25 cm is buried in the ground - 25 cm goes inside the post.

NOTE - The post is demountable.
