Acrylic glass information board on distances.

The board measures 1000 x 1000 mm and is 5 mm thick.

The graphics on the board can be designed freely according to suggestions / needs.

The tables are applicable:

- offices, functions, departments.
- list of tenants in the building.
- advertising and information.
- logo, company logos

Mounting with brushed steel spacers included.

Graphics can be freely modified - unstick / stick in a given period.

Toughened glass board. chamfered, ground + 60% to the price in the box.

Tempered glass boards have the advantage that glass is a noble material and it maintains its life and functionality better in the event of frequent changes to the graphic information.
