The information board is made of transparent plexiglass panels for exchangeable content.

The panel measures 700 x 80 mm and has 300 x 80 mm Plexiglas pockets for interchangeable sheets.

Pockets can be of any size, but we recommend the most commonly used size of 300 x 80 mm due to the commonly used printers / cards up to A4 format.

The price in the box includes the cost of an acrylic glass panel covered with sandblasted foil on the underside + 2 pockets 300 x 800 mm + side fasteners for steel cables.

Larger main panel: 700 x 120 mm = 30 EUR net / pc.

Fastening system + EUR 100 net / set

Bottom handle x 2 pcs.

Top handle x 2 pcs.

Steel cable - free.
