Cena brutto: 246,00 zł

A link board with a list of companies renting premises.

The board consists of aluminum panels with the names of the companies.

Graphic panel with side fasteners for a steel cord - 500 x 100 mm - 35 EUR / item

Graphic panel with side fasteners for a steel cord - 500 x 200 mm - 70 EUR/ item

Cable system;

top and bottom mounting + steel cable = + 100 EUR / set net.

General assumptions.

Usually, I use aluminum panels with dimensions of 500 x 100 mm for everyone, but it happens that a given tenant wants to be distinguished from among other companies on the board, then a larger panel of 500 x 200 mm is used. The monthly fee for the tenant for a larger plate (if applicable) or a one-time fee is of course proportionally higher.

Content / graphics on panels.

Tenants' messages on boards in higher-standard buildings are used in a single, single-color font. Here we propose Times New Roman. This allows us to easily find the name of the tenant, does not cause confusion with the variety of logotypes, I give a nice elegant design harmonizing with the facade.
