Hotel reception desk in capital letters.

The letter is made of metal with a brushed, very elegant structure.

In the single-letter system we can mark not only the reception but also:
restaurant letters, bar letters, cloakroom letters, pool letters, sauna letters etc.

The color of the letter is arbitrary, but we usually make it in gold or silver.

Price in a box for a gold letter 20 cm high.

We attach a free template to each inscription for quick and easy assembly.

Each letter is taped with 3M double-sided tape.

When placing the order, please write the suggested font, color of the letter in the remarks - we will send you the design for approval before production.

If you have a different idea for the hotel marking - please write an email - we will present an individual offer.
