Gym and sauna plates.

The signs are engraved in metal imitating marble.

The color can be anything as suggested.

Dimension: 150 x 150 mm

The sign take a shower in front of the sauna, in a humorous and gentle way, reminds distracted customers who forget about this obligation.

Put the weights on the board in a funny way to embarrass a messy man in the training room.

The sign, do not swear, makes the gentleman think, at the very entrance to the sauna, that maybe not everyone talks like that, but most of all they came to the sauna to relax in silence.

The signs have a great power of communication and most importantly they allow us to avoid conflict situations.
